

**BRAIN DRIVE
BY TOM HALL
BOOK CLUB
QUESTIONS**

1. If you were a kid in the book *Brain Drive* would you want to have the brain drive or would you not want one? Explain your reasoning.
2. If you had the brain drive device implanted what would be some of the first few modules you would want to download?
3. What are some of the benefits of the brain drive?
4. What are some of the unintended consequences of the brain drive?
5. What other types of technology can you think of that offer benefits as well as unintended consequences?
6. Which character in *Brain Drive* did you relate with the most?
7. Why do you think Caleb and Dusty became fast friends?
8. Tom Hall, the author of *Brain Drive* recorded the audiobook version. Would you be able to record a book with several different voices? Choose a page from *Brain Drive* and give it a go! Pretend you're recording the audiobook and see how you do.
9. Do you think it was right that the person in the restaurant turned in Caleb for not having a brain drive when he was seen briefly without his hat? Why or why not?
10. Do you think that the larger society should be able to make decisions about forced medical procedures for individuals such as the brain drive? Why or why not?
11. What would be the best part about living at OASIS? What would be the worst part?
12. If you showed up at OASIS like how Caleb did, what types of things do you think they would have put in your room ahead of time?
13. Consider the following sentence: "He knew what every building was before he even had the chance to wonder." How do you think life would be different if we never had to wonder about anything?
14. In *Brain Drive*, Dusty is fascinated with birds. What is a topic that fascinates you right now?
15. Have you ever considered writing a book? If so, what genre do you think you would write?
16. Would you like to have an eidetic (photographic) memory like Caleb? Why or why not?
